***Dear Residents -***

I wanted to give you a brief **update on the Memorial Bridge Project**. After some very rainy weeks, we have had a few dry weeks for construction! The Contractor has completely removed the bridge structure and has begun reconstruction. They are scheduled to begin drilling the new piers next week. Steel beams for the new bridge have also been delivered. We are hoping the weather cooperates with us again next week!

**We do need your attention and help with some safety concerns.** The Contractor has reported that they are still seeing trespassing in the construction zone. We are asking all residents to please stay clear of this site and to ensure your children do as well. Public safety is our number one concern but we need everyone's help. Please **DO NOT** move signs and barricades. This is illegal and will be enforced by MVPD.

I know this project is very interesting to watch so I am including some photos so you can see the progress:

*Again, we thank you for your patience and understanding during our construction projects!*

***Karen Glynn, City Administrator***
